## Hide It 4 Me Full Product Key

Hide it 4 Me is an application that discreetly hides a selected folder and all its files/subfolders. Take a look at the included example screenshots to get a feel for the practicality of Hide It 4 Me. Hide It 4 Me Features: \* Hide selected folders in a discrete way \* Intuitively hide the selected folder from Windows Explorer, My Computer and any application 'FileOpen' dialog box \* No keyboard shortcut required \* Display/hide a single folder at a time \* Auto-hide folder after a customizable inactivity time-out \* Visible within 'Start Menu' and/or 'Control Panel' \* Backup-able with a single file \* Viewable within 'Start Menu' and/or 'Control Panel' \* Restored using a single file \* Restore backup of the single file \* No access control limitation, read/write, file owner or group change \* No individual file size limitation \* Can be hidden after a reboot or a shutdown \* Can be hidden with a manual hide in case of virus attack or power failure \* Can be hidden before a scheduled time \* Can be hidden upon a scheduled time \* Can be hidden upon logoff/login (hard to get around) \* Can be hidden after a configurable inactivity time-out period \* Can be hidden after a specified logon/logoff \* Can be hidden upon a specified logon/logoff \* Can be hidden after a specified delay \* Can be hidden by simply shutting down or restarting the computer \* Can be hidden by simply shutting down or restarting the computer \* Can be hidden by using a keyboard shortcut \* Can be hidden by turning off the computer \* Can be hidden upon a rest-time \* Can be hidden by a group of files in a single folder \* Can be hidden by a group of files in multiple folders \* Can be hidden by a single file \* Can be hidden by a single folder of a single file \* Can be hidden by a single file in multiple folders \* Can be hidden by a single file in multiple folders of a single folder \* Can be hidden by a single file in multiple folders of multiple folders \* Can be hidden by a single folder of a single file in multiple folders of a single folder of multiple folders \* Can be hidden by a single folder of a single file in multiple folders of multiple folders of multiple folders \* Can be hidden by a single

## What's New in the Hide It 4 Me?

\* Prevent or hide "Windows Explorer", "My Computer" and any application 'FileOpen' pop-up dialog boxes from accessing any data stored in a selected folder. \* Allow Windows 'Start Menu Programs' or 'Control Panel Add/Remove Programs' to list the hidden folder but it cannot be used to easily open it. \* Create a unique password/key which allows only the owner/creator of the folder to view/access its contents. \* Once the password is supplied, the folder becomes viewable. \* The folder viewable is visible in 'My Computer' and 'FileOpen' pop-up windows from 'Windows Explorer' \* Any files opened from within the hidden folder will not appear in the Windows MRU list nor is the application itself viewable from the 'Start Menu Programs' or 'Control Panel Add/Remove Programs' lists User Requirements: \* Must be run as Administrator to hide the selected folder. \* ShowFolder will replace the selected folder in: Windows 'My Computer' - list Windows 'Start Menu Programs' - list 'Control Panel Add/Remove Programs' - list Windows FileOpen/FileSave - list The 'Start Menu Programs' - list is limited to about 25 entries. \* If 'ShowFolder' is called within a Modal Dialog, the folder will be hidden until the dialog is closed. \* To ensure the file/folder is hidden when 'FileOpen'/'FileSave' dialog is used, the folder must have the 'Read Only' attribute set. \* If the user has created a password for the hidden folder, the password that was originally generated when the folder was created will be used by default when ShowFolder is called. \* The user does not need to have administrative privileges to view the selected folder if they have set the password. \* The password/key cannot be shared with other users or if it is forgotten. License: \* ShowFolder is freely distributed under the following conditions: \* ShowFolder is used in an unrestricted fashion for demo/educational purposes. \* The distribution and use of ShowFolder is for non-commercial purposes only. \* The distribution and use of ShowFolder is for non-profit or personal non-commercial use only
