THE FEATURES OF THE GAME Please look after the left side banner of the game to view the characteristic images of this game. Table of Contents 1. How to Play the Game 2. Greetings from Tarnished Studios 3. About the Game 4. Main Features of the Game 5. Game Screen 6

Features Key:

A Vast World
You can freely customize your character
Various modes to find your own play style
A long story with an impressive soundtrack
Exciting adventures await you
A unique online play that connects you directly with others
2D UI with 3D effects

Development Philosophy

Knights of the Elden Ring is an open world fantasy RPG. To support safe gameplay for everyone, we decided to make the world smaller and players have fewer options to select.

Therefore, the world of this game is created as multiple but small worlds. Do you want to play as a simple single player character? You can do that. However, if you wish to play with a guild, you can connect to a world where your guild members are present. Additionally, we created multiple worlds to allow for a variety of experiences and play styles.

2D UI

Our goal was to bring a feel to the game that would stand out from other high-quality fantasy RPGs. While creating the game engine, we drew out a naive plan of developing something new with graphics and a 2D

UI. However, players wanted to enjoy the game in a 3D environment.

So after realizing the importance of this, we created the UI to match the play style. The UI is in line with the style of the game. You can move around the game world by clicking the map, look at items in the inventory, choose whether to attack or magic, and open menus from the 3D characters.

Compatibility

The game is compatible with PCs, Android mobile devices and iPhone mobile devices that support OpenGL ES 2.0. Therefore, you can enjoy the game in an environment that fits your device.

If you play an iPhone mobile device, the iCarry app is available in the Store.

1.Unrar or extract the file you have downloaded.2.Run the setup.exe and accept the terms and conditions.3.Run the game and enjoy., 'eyeing' on the price movements and analysis of the currency. It is not possible to play back a one tick to the nearest currency pair within a trading platform like Forex Factory. These are generated by the platform's algorithms. A one tick is designed to help give our users an idea of what may happen if they were to take the trade. Ultimately, the best trades are made with the view that 'close' is slightly more than the 'open'. Forex Factory does this by generating one tick. To us this is just a number. For traders it is more than just a number, it is an indication of how much might actually happen and how long this may take. The above video tutorial explains how to get started with the Forex Factory trading platform. No experience is necessary. Just click below on 'Sign Up' Register for free using the link. You will be redirected to a page that requires credit card information. Enter this information and press 'Continue' If you are not sure if you are eligible for access, click here for more information. Once you register and log in you will see a big capital market indicator above the table. This is the absolute status of your account. Deposit funds for free using a bank transfer. Sign up is not required. If you are using a credit card, you must first agree to purchase a credit card from UFX2U, and ensure this card is ready for use. How to fund your account. Once you have initiated a free trial of Forex Factory, click the Deposit button in the account settings page. We recommend that you deposit a minimum of £100 into your trading account. Using a verified bank transfer service like TransferWise or Qiwi, deposit funds using the link below. Your bank account details are required, along with your home address and phone number. You will be transferred to a page that requires a credit card number to complete the deposit. Enter this information and press 'Continue'. If you are having difficulty depositing funds please contact us for assistance. When you have made a deposit, click the check your account button. We will confirm that the bank transfer was successful by email. If you are using a credit card, click the
