K: Station is a 3D minimalist free real-time game. You can play it free on your browser, and you can play it offline. A: I think Prison Architect is similar, but not a complete clone as the game is not free. And you get to build the prison yourself, and "determine what kind of convicts you want to house in the institutions around you": A: With the new features and updates added to the game I've recently given Prison Architect a go. It's not a clone, but it's pretty close. Features: * 41 free to play levels with plenty of available design options * Prison-builder where prisoners that are determined to be a threat will be held in a special facility until their sentence has expired or they have been freed * Awesome music and great sound effects * Lots of new game mechanics and improvements * Prison Architect runs without any plug-ins * 10 different profession * A prison guard, a landscape designer and a chef * 30 kinds of cells * Interactive backdrops * Simulators that help you to determine how cells work * Tons of options * Leaderboards where you can compare your progress and make sure you are on top of the world Q: Get content of imagefile I want to read a ".ico" image file and write its content to my active document. I tried it with: `img = LoadPicture("C:\bin\projekt\test.ico")` But User defined type not defined. [Project\Form1.vb(15)] Do I have to declare a special UDT for an image file? Do I have any other options? A: When I create an icon using Visual Studio, the Ico.ico file contains the following text inside it:

He bought at cheaper price a second-hand Catherine Wheel well-maintained by its Norwegian designer, Bjørnstjerne Bjørnson, and shipped it from Norway when Napoléon III seized the opportunity to use it as a part of his celebration for the anniversary of the battle of Austerlitz. To be more precise, Napoléon III on July 15th 1840, celebrated the anniversary of the defeat of the Austrians at Austerlitz. The anniversary celebrations at the Tuileries Gardens, the free entrance, the fountains and the entertainments included a Catherine wheel.[1] On the day, no sign of a Catherine wheel or bust of the emperor was seen in the Tuileries gardens, but later, on July 25th, the wheel was removed from the Tuileries on the orders of the mayor of the capital, Alcide Sebelde and was installed at the Élysée Palace in a room where the door is opened once a year on the anniversary of the defeat of the Austrians at Austerlitz.[2] Napoleon's Message: "Citizen Thomas, the reason why I have asked you today, for the first time, in my presence and in that of the members of the department, of the representations of the city, of the ministers and of the Senate of France, to come and address the French people in public, to make a few remarks,

===== 2017 NFL Playoff Predictions & 2018 Fantasy Football Sleepers While we all know our preferences in the NFL Playoffs, most of us will be starting a fantasy football roster for the first time. Often you will be anxious to jump into a fantasy football draft with your friends, but you need to have some understanding before you start. You don't want to draft a player and find that they were injured or that they were traded. Not to mention that the NFL Playoffs are unpredictable and changes can happen at any time. In order to land your fantasy football draft success, you need to make a wise decision about who to draft. You don't want to select too early in a draft and end up with a starter that won't start or is hurt. Of course, you want to avoid the last rounds of the draft where you draft a player that you feel is going to be cut. So make sure you really understand the NFL playoffs. These picks are based on my NFL playoffs preferences. These are the players that I'll start and I wouldn't consider leaving them out. In fact, here are my top ten NFL Playoff predictions. 1. Tennessee Titans 2. Seattle Seahawks 3. New England Patriots
