For example, if I ask if you have a toothbrush you will say "off in your ear", meaning that you will find it somewhere else, maybe in the bathroom. Am I right? A: Yes, that is correct. It means the brush is hidden away. Q: why does puts need to be wrapped in a begin/end block? I am fairly new to nodejs but from my understanding I was under the assumption that if i did puts "blah" No block necessary on the other hand if i do: puts begin puts "blah" end Or use a block: puts "blah" do puts "blah2" end here is the error i'm getting TypeError: undefined is not a function at Object.
