Additionally, while the anti-fungal efficacy of auranofin was assessed in human cells, the effects of this drug were not evaluated in animal models. Future in vivo studies that also include evaluation of the pharmacokinetic properties of this drug are warranted to determine whether it might be used as a novel anti-infective drug for patients with AIDS-associated CM. Conclusions ===== The antifungal effects of auranofin were evaluated in both human and murine cells and showed that it is a broad-spectrum anti-fungal agent.
