Tekken Tag Tournament 2 is a great fighting game. With all its characters, its fast pace and game mechanics in-line with the series standards, it is the ideal game for fans of fighting games to buy. With a detailed story mode and tons of DLC characters unlockable in-game, the title has set the bar high for future fighters. Check out our full review! In addition to getting access to all currently playable characters at launch, many more of the game's DLC characters are free downloads as well, and a few of them are even exclusive pre-order bonuses! When checking out the playable roster for the first time, you will notice that character model art is available for each playable character, so that you can easily check out who you are fighting against before you jump into a bout. This is yet another facet to the

game that will allow you to go down a more tactical route with your gameplay. Just like new, Tekken Tag Tournament 2 feels like a cohesive package that is trying to compete with the high quality in gameplay that is the norm with most of the top fighting game fighters. While several of the game's new additions are brand new characters, a handful of the game's veterans have been updated to look better, more mobile and hopefully to be able to stay out of the opponent's way so that gameplay does not suffer. Lastly, as always, the game's soundtrack by Naoki Maeda and long-time fighting game composer Michiru Yamane helps bring a feeling of authenticity to the experience. If you're looking for a new fighting game to enjoy this holiday season, download **TEKKEN TAG TOURNAMENT 2: Wii U Edition** on Xbox LIVE, the PLAYSTATION Network, or on Namcos Official Website for a \$49.99 price tag. This will be fixed in a future update and the characters will be bound to the one character for that week. We apologize for any inconvenience this has caused. way this is done is through a mode called the "Tekken Tag Tournament 2 Storyline" that can be accessed during a round by pressing X. To quote

Mr. Harada: the Storyline You can start at any chapter of the story, and you can use a particular new game mode that has been made in Tekken

Tag Tournament 2. This mode is Tekken 7: Powerful Upgrades, and is something I would have liked to see introduced in Tekken Tag Tournament
